COMMISSION ACTION REQUESTED ON: March 16, 2026

PURPOSE: This request seeks approval from the Board of Commissioners to authorize the purchase of surplus fire department equipment from the City of Demorest. The equipment has been identified as surplus by the city and is available for purchase by the county to support fire department operations.

The proposed purchase includes a variety of essential firefighting equipment such as turnout gear, firefighting boots, helmets, a ventilation saw, a K-12 rescue saw, fire hose, fire nozzles, medical equipment and other related items as detailed on the attached equipment list. These items remain serviceable and will enhance the department's ability to respond to emergency incidents safely and effectively.

BACKGROUND / HISTORY:

- a. In October 2025, Habersham County and the City of Demorest entered into an Intergovernmental Agreement under which Habersham County Emergency Services provides fire protection services to the City by staffing the existing fire station and operating fire apparatus owned by the City.
- b. The equipment is in very good condition, with an age range of approximately one to five years and remains suitable for continued operational use.
- c. Purchasing this equipment provides the County with the opportunity to retain and utilize equipment that is already in service at the station while avoiding the higher cost of purchasing new equipment.
- d. All equipment, including uniforms, hoses, and tools, is compliant with applicable NFPA standards.
- e. Any outdated or worn equipment has been excluded from the proposed purchase.
- f. The Self-Contained Breathing Apparatus (SCBA) packs and cylinders were purchased by the City of Gainesville and are not included in this transaction.

FACTS AND ISSUES:

- a. The list is an inventory of the equipment with the agreed upon price and extended.
 - b. The equipment is needed and saves the county the cost of new equipment.
 - c. The total price is \$75,000 divided into 4 years, starting in January 2027, for time remaining in the original Intergovernmental Agreement from October 2025. Or \$18,750/year credited toward the amount the City of Demorest pays for Fire Protection each year.
-
-

OPTIONS:

- 1) Approve recommendation: Approve the purchase of the surplus fire equipment and gear from the City of Demorest.
 - 2) Deny recommendation: Deny the purchase of the surplus fire equipment and gear from the City of Demorest.
 - 3) Commission defined alternative: Provide alternative direction as determined by the Board.
-
-

SAMPLE MOTION RECOMMENDED:

I make a motion to approve the purchase of the surplus fire gear and equipment listed in the attached document for a total of \$75,000.00, to be applied as a credit of \$18,750.00 per year over the four remaining years of the October 2025 Intergovernmental Agreement.

Subject: Habersham Fire Department

I wanted to bring to your attention the attached comprehensive list of equipment, tools, and supplies that were inventoried by the Habersham County Fire Department. Since they assumed command of our city's fire department, they have meticulously cataloged each item, including the quantity and individual prices, culminating in a grand total of \$75,000.

This amount will be credited to our agreement over the next four years, starting January 1, 2027. To proceed, the Mayor and Council will need to surplus these items if you agree with the provided valuations. Additionally, we need to surplus the items for the Gainesville Fire Department. Upon approval, the city will receive a check for that entire amount.

Please review the attached list and let me know if you have any questions or require further clarification. Your prompt attention to this matter is greatly appreciated.

Thank you.
