Re: Special Recognition of Jessica Chambers

Commissioners,

On March 16th, 2025, Med 9 was dispatched to a residence for a person advising ““I thought I was having a stroke.”

Upon arrival, an elderly female was complaining of left sided weakness and had slurred speech. After a complete assessment, the patient refused transport to the hospital. Ms. Chambers and her team explained the possible consequences of not being evaluated at the hospital and convinced the patient to be transported by the med unit. The patient was transported to the Habersham campus of NGHS where a stroke was confirmed by the doctor.

The patient was discharged to her residence following the treatment at Habersham. Tinnelle Davey, the Performance Improvement coordinator at NGHS-H, brought to our attention the excellent patient advocacy and care provided by Jessica.

From Ms. Davey,

“I want to take a moment to recognize the exceptional care provided by Jessica Chambers with regard to PCR #25-1775. The patient initially declined transport, Jessica took the time to educate the patient about potential risks and the importance of evaluating their signs and symptoms. During the transport, she consistently reassessed the patient to monitor any changes in their condition using BE-FAST. Additionally, her documentation was outstanding.”

I have known Jessica since 2012, when she attended the Advanced EMT class at NGTC with myself as her instructor. Jessica worked at Hart County for several years before coming to Habersham in December of 2019. She has since received her Paramedic education at Lanier Technical College and continues to further her training through continuing education and leadership classes, serves as a Field Training person and an EMS Instructor as well as a Paramedic/Firefighter, mother and wife.

Sincerely,

Jeffrey D. Adams

Director/Chief
