

HABERSHAM COUNTY BOARD OF COMMISSIONERS

EXECUTIVE SUMMARY

Subject: Pool Filter Repair

Date: September 3, 2026

Budget Information:

- Funding Source: General Fund
- Annual:
- Capital:

ACTION REQUESTED

☒	RATIFICATION
☐	POLICY DISCUSSION
☐	STATUS REPORT
☐	OTHER

Purpose: To request ratification of unplanned pool filter repair.

Background: Significant sand intrusion into the Habersham County Pool indicated a filter issue. Pool staff, facility management, and citizens became concerned with a potential health risk resulting from poor filtration. Augusta Aquatics was contacted to investigate the issue and quote a price to repair the issue.

On August 17, 2026, a repair crew arrived and discovered the damage to the filter system was much more significant than originally believed. All the lateral filters and several of the valves in the filter system were not functioning properly. Augusta Aquatics believed that failing to repair the issue would result in continued degradation of the system.

Facility management, Finance, and pool staff agreed that the emergency nature of the health risks associated with unfiltered pool water required immediate repair.

Facts and Issues:

- a. Pool filter repair cost \$38,209.00.
- b. Immediate action was deemed necessary to both protect Habersham County property and eliminate potential health risks.

Options:

- a. Ratify expenditure of funds.
- b. Other action defined by Board of Commissioners.

Recommended Sample Motion: Move to ratify expenditure of funds.

Administrative Comment:

County Manager: _____ Date: _____
